

1st Grade Poems

May 2010

Four poems from Sister Mary's 1st grade class are enclosed:

1. "How Beautiful the Nature Is!" by Chanelle H.
2. "Untitled" by Briana L.
3. "All About Nature" by Laila M.
4. "Untitled" by Noadiyah J

You can email comments to the general St Ethelreda email: welcome@stethelreda.org

Thank you!

How Beautiful the Nature Is!

by Chanelle H.

The sun is yellow.
The trees are green.
The water is very light blue.
The flowers can grow with water.
Some flowers are different colors.
The air is clean.
The birds fly in the sky.
The birds are blue.
The butterflies fly in the sky.
Some are different colors too.
The sky is blue.
The clouds are white.
The leaves are different colors too.
The grass is green.
We love nature.

Untitled

by Briana L.

I have seen the trees are green.
I also knew the sky is blue.
The leaves fall down upon the ground,
The water is light and very bright,
The flowers are beautiful, this is true.
And the plants are pretty too.

All About Nature

by Laila M.

The flowers are all kinds of colors
and they are very pretty.
The birds fly in the sky
and they fly very high and they are very pretty too.
The butterflies also fly in the sky
and they have lots of colors just like a rainbow.
The rain fall brings lots of water for the grass and flowers.
The leaves fall from the trees and changes into lots of colors.
This is what nature means to me.

Untitled

By Noadiyah J.

Roses are red,
and violets are blue,
and when I look up
I can see the Beautiful sky
The trees are nice
And the green plants are as beautiful as can be. Oh Oh Oh,
there are so green and so nice.
The air is nice and cool.
It's so nice, it's so nice.
The daisies are blooming everywhere.
There are so beautiful.
Oh yes.
